About Agenus

Agenus is a clinical-stage immuno-oncology company focused on the discovery and development of therapies that engage the body's immune system to fight cancer. The Company's vision is to expand the patient populations benefiting from cancer immunotherapy by pursuing combination approaches that leverage a broad repertoire of antibody therapeutics, proprietary cancer vaccine platforms, and adoptive cell therapies (through its AgenTus Therapeutics subsidiary). The Company is equipped with a suite of antibody discovery platforms and a state-of-the-art GMP manufacturing facility with the capacity to support early phase clinical programs. Agenus is headquartered in Lexington, MA. For more information, please visit www.agenusbio.com; information that may be important to investors will be routinely posted on our website.

About AgenTus Therapeutics, Inc.

AgenTus Therapeutics, a subsidiary of Agenus, is a preclinical-stage biopharmaceutical company focused on the discovery, development, and commercialization of breakthrough "living drugs" to advance potential cures for cancer patients. AgenTus employs naturally-derived and engineered receptors, specifically T cell receptors (TCRs) and Chimeric Antigen Receptors (CARs), designed to supercharge human immune effector cells to seek and destroy cancer. AgenTus also aims to advance adoptive cell therapy formats which would enable off-the-shelf living drugs. AgenTus has locations in Lexington, MA and Cambridge, UK.
