

Agenus Announces ESMO Oral Presentation of Two Clinical Trials of Balstilimab Alone and in Combination with Zalifrelimab in Recurrent or Metastatic Cervical Cancer

August 26, 2020

Data from two Phase 2 trials of balstilimab +/- zalifrelimab in patients with refractory cervical cancer were accepted as part of a late-breaking abstract and will be presented as an oral presentation on September 18, 2020 at ESMO

LEXINGTON, Mass., Aug. 26, 2020 /PRNewswire/ -- Agenus Inc. (NASDAQ: AGEN), an immuno-oncology company with an extensive pipeline of checkpoint antibodies, cell therapy, adjuvants, and vaccines designed to activate immune response to cancers and infections, today announced that data from two Phase 2 trials of balstilimab alone and in combination with zalifrelimab will be presented in an oral presentation at the upcoming European Society of Medical Oncology (ESMO) Conference on September 18, 2020.

Data will be presented by Dr. David O'Malley, Professor of Obstetrics and Gynecology at The Ohio State University College of Medicine and the Director of the Division of Gynecologic Oncology at the James Cancer Hospital of The Ohio State University Comprehensive Cancer Center. Agenus remains on track to initiate rolling BLA submission for balstilimab monotherapy this quarter. Agenus also plans to have a completed data packet supporting BLA submission of balstilimab in combination with zalifrelimab by the end of this year.

Abstract title: Single-agent Anti-PD-1 Balstilimab or in Combination with Anti-CTLA-4 Zalifrelimab for Recurrent/Metastatic (R/M) Cervical Cancer (CC). Preliminary Results of Two Independent Ph2 Trials [LBA34]

Session: Gynaecological cancers

Date: September 18, 2020

About Agenus

Agenus is a clinical-stage immuno-oncology company focused on the discovery and development of therapies that engage the body's immune system to fight cancer. The Company's vision is to expand the patient populations benefiting from cancer immunotherapy by pursuing combination approaches that leverage a broad repertoire of antibody therapeutics, adoptive cell therapies (through its AgenTus Therapeutics subsidiary), and proprietary cancer vaccine platforms. The Company is equipped with a suite of antibody discovery platforms and a state-of-the-art GMP manufacturing facility with the capacity to support clinical programs. Agenus is headquartered in Lexington, MA. For more information, please visit www.agenusbio.com and our Twitter handle @agenus_bio. Information that may be important to investors will be routinely posted on our website and twitter.

Forward-Looking Statements

This press release contains forward-looking statements that are made pursuant to the safe harbor provisions of the federal securities laws, including statements regarding clinical development and regulatory plans and timelines. These forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially. These risks and uncertainties include, among others, the factors described under the Risk Factors section of our most recent Quarterly Report on Form 10-Q or Annual Report on Form 10-K filed with the Securities and Exchange Commission. Agenus cautions investors not to place considerable reliance on the forward-looking statements contained in this release. These statements speak only as of the date of this press release, and Agenus undertakes no obligation to update or revise the statements, other than to the extent required by law. All forward-looking statements are expressly qualified in their entirety by this cautionary statement.
